**Editorial Reviews**

Incredible Creatures That Defy Evolution 3 Vol Gift Box Set presents powerful evidence that proves that animal designs can only be attributed to a creator. They cannot possibly be explained by evolution. This program will inspire you to look more closely at the world around you. Incredible Creatures 3 Vol Gift Box Set enters the fascinating world of animals to reveal sophisticated and complex designs that shake the traditional foundations of evolutionary theory. For the past 20 years, Dr. Jobe Martin has been fascinating his students as he lectures on these remarkable animals that cannot be explained by traditional evolution.

#### We Love these!

By D. Florentine on April 27, 2013

Format: DVD **Verified Purchase**

These DVD's generally will be reviewed in two "camps". Non-believers scoff and say it's not "scientific enough", believers praise them because we believe that God created EVERYTHING anyway, so we concur with the basic information in them. If you are a fellow believer, I trust that you'll like these. Our children (all under 10 years old) love them, they are informative enough and interesting enough to hold their attention. Highly recommend.

#### Incredible Creatures that tell a Credible truth

By Katherine Hickok on May 7, 2013

Format: DVD **Verified Purchase**

Thank you so much for this product. I love the way Jobe Martin presents these creatures and then how he presents the God of creation. Our God made a wonderful, fascinating world. There is no way these things could have evolved any more than an explosion in a print shop could have produced Webster's Unabridged Dictionary. Kids of all ages will love seeing these fascinating animals and hear the story behind their existence.

#### Very convencing

By Larry D. Peterson on February 27, 2013

Format: DVD **Verified Purchase**

Real interesting and holds interest. Good for any function such as Bible study or Sunday school or gathering. Highly recommended. Showed how God has instilled traits in animals that cannot be taught by their parents.

#### Needs updating.

I would put I loved it but it needs to be redone in high definition and wide screen format. Published 2 months ago by Howie

#### My kids really like watching this

Our family loves it. My kids really like watching this. It also helps rebuke the lies of evolution and they logically understand why creation is the only answer for life on earth. Published 3 months ago by MT

#### Worth every dime!

These are fantastic films...! Published 6 months ago by Amazon Sure Get's A Bunch Of My Money

#### I loved this set

I loved this set! So great to see the amazing creatures God created. I would recommend this set to Christians and especially evolutionists. Published 6 months ago by Sherry R.

Beautiful set of DVDs - my grandson will love them! He's a budding scientist, but also a strong Christian and questions evolution.

**Ammunition for creation.**

By [Bill J Crews](#) on June 2, 2013

Format: DVD **Verified Purchase**

Very interesting. There is no way that evolution can account for such amazing creatures. If you are looking for arguments that support creation as opposed to evolution these are excellent.

**Good DVDs, informative, makes you think.**

By [Speach60](#) on August 18, 2014

Format: DVD **Verified Purchase**

Good DVDs. They gave a lot of information, but it was in the form of a conversation/lecture-type method. I would have hoped for more graphics showing what they were talking about, as was done in the Intelligent Design DVD set. Each DVD contained topics on a variety of different creatures that defy evolution and gave the speaker's testimony of how he went from being an atheist to becoming a Christian, based on his thorough research of the facts. It was entertaining and informative.

**Convincing Evidence Against Evolution**

By [Morris Gildemeister](#) on November 29, 2013

Format: DVD **Verified Purchase**

Excellent presentations of some of the most convincing evidence against evolution. Viewers of all ages will find the presentations enlightening, interesting and compelling. May generate special interest in younger viewers - age 10 and up - who often tend to be especially interested in animal characteristics. Highly recommended.
